

## CHEAT SHEET – Project 3

**Project 3** - FOTO 1140 Maximum Depth of Field Capture five landscape (f/22 - everything in focus) images. Images need to be gray balanced and sharpened. Tips: Use your landscape icon or mountains icon or f/16 to f/22. Use wide angle focal lengths. Set up a foreground, midground and background to portray a sense of depth. 1) All project images must be submitted in an album labeled Project #2 to your personal Flickr account by the appropriate due date.

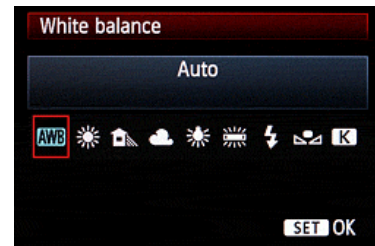

**Naming project**-image files.pdf" describes (found in the Projects tab). Example: P3\_1\_yourlastname.jpg, P3\_2\_yourlastname.jpg, P3\_3\_yourlastname.jpg., etc. Number them not in the order they were taken in but the order you want them viewed as a group. 2)

Upload all project images to our FOTO 1140 class Flickr page.
